- Thymeleaf
- AJAX
- REST API

Frameworks
- Bootstrap
- Spring MVC
- Spring Boot
- Hibernate
- JUnit
- Mockito

LANGUAGES

- Portuguese
- English
- French
- Spanish

HOBBIES

ABOUT ME

Eager to learn, master of spilling thoughts, and a lover of the programming world.
Started the adventure of programming, and after finishing my bootcamp, I continue my learning journey, developing my skills and mastering how to deal with frustration and overcoming it. 💪
While embracing this adventure I realized that I love problem-solving and the challenges that come with it, every line of code is an acquired knowledge, every block is an achievement, and for every program that runs without errors is a victory to enjoy, and a building block for the next code to write. 🖥️👨‍💻🧱
